Shiawassee County COVID-19 Employee Isolation and Quarantine Policy – COVID-19

In order to prevent transmission of COVID-19, Shiawassee County will follow the Centers for Disease Control (CDC) and State of Michigan guidelines related to isolation and quarantine. When an employee of Shiawassee County must be placed in isolation or quarantine, the following policies and procedures will apply:

ISOLATION. Isolation separates sick people, those who test positive for a contagious disease, from people who are not sick.

- 1) If an employee is placed in isolation and they are able to work while in isolation, then it is expected that the employee will continue their work duties from home.
 - a. The employee will code their time to the appropriate work-related programs.
- 2) If an employee is placed in isolation and is unable to work from home either due to the type of work they do or due to illness, they will be allotted up to 10 working days of COVID-19 time.
 - a. If an employee needs additional time to recuperate, then sick time shall be utilized for the remainder of the duration of isolation.
 - b. If the employee does not have enough sick time to cover the time, they can apply for short-term disability.

QUARANTINE. Quarantine separates and restricts the movement of people who were exposed to a contagious disease and provides a set period of time to ensure they don't develop the disease.

- 1) If an employee is placed in quarantine and are able to work while in quarantine, then it is expected that the employee will continue their work duties from home.
 - a. The employee will code their time to the appropriate work-related programs.
- 2) If an employee is placed in quarantine and is unable to work from home due to their assigned duties, they will be allotted up to 10 working days of COVID-19 time.
 - a. If an employee needs additional time, then sick time shall be utilized for the remainder of the duration of quarantine.
 - b. If an employee who is in quarantine becomes COVID-19 positive and must go into isolation, then the isolation guidelines apply, and sick time shall be utilized if needed.

TESTING. If an employee is unable to work while awaiting test results for COVID-19, sick time shall be utilized until results are obtained.

TIME REPORTING. If the employee comes to contract COVID-19 through the course of normal

dealings, their time will be recorded on the COVID timeline in the payroll system (unless they are able to work from home and then that is considered regular time). If the employee chooses to travel (non-work related) and becomes exposed, they must use their vacation time and/or sick time for the quarantine period.

The County Coordinator and Buildings and Grounds Supervisor shall be notified immediately.
