

## CONCEPTUAL REVIEW CHECKLIST

Prior to the permit application, the Owner/Developer shall submit to the Drain Commissioner or his designee the conceptual design and layout of the proposed development. The Developer/Owner shall also submit copies of the conceptual design and layout to the Township where the development is proposed for preliminary review and comment. This conceptual design and layout, at a minimum, shall include:

Each of the following items shall be included:

\_\_\_\_\_ Small location map showing the section and part of the section in which the site is situated.

\_\_\_\_\_ Location and description of all activities that may impact or be impacted by the proposed development or redevelopment both on and off the site.

\_\_\_\_\_ Acreage of the total site and acreage of the area being affected by the development.

\_\_\_\_\_ If known, a conceptual layout of the proposed drainage system for the development or redevelopment.
