

Setting the Default PDF Viewer

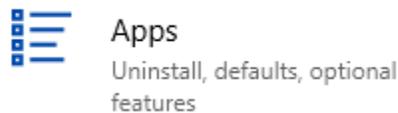

Windows 10 defaults to Microsoft Edge as the default PDF viewer. This might not be your preference or may not work with the programs you use daily. You can change the default PDF viewer by completing the following steps.

1. Click  Start

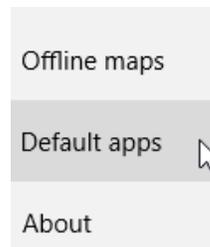

2. Click Settings – It may not say settings, but you want to click on the

3. Click Apps

4. Default apps

[Choose default apps by file type](#)

[Choose default apps by protocol](#)

5. Scroll to the bottom and select Choose Set defaults by app.

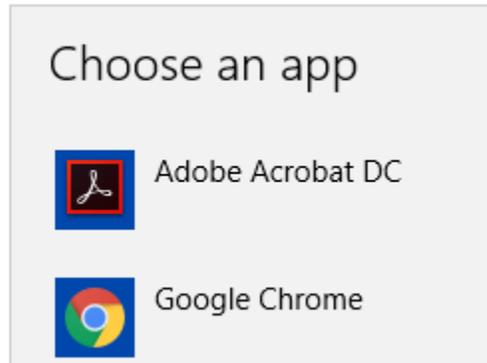

Set defaults by app

6. Find and left click on Adobe Acrobat DC. You will see Manage appear

7. Click Manage and then find .pdf in the lefthand side list.

8. Click on the program shown across from .pdf. From the pop-up box select Adobe Acrobat DC.

9. Click the X in the upper right corner and the browser you selected will now be your default browser.
